Helpful Hints for perfect results

Use the yarn specified
Yarns and plies do differ. They can cause different tensions and therefore the wrong size and a poor fit. The PATONS team use their skills and know-how to create and test patterns suitable for the yarn recommended.
You could be disappointed with your garment if you make the mistake of using something 'near enough'. We strongly suggest your valuable time and money deserves the PATONS yarn recommended.

Selecting the right size
Don't guess – measure baby's chest just below the underarm. Match this with the sizes in the instruction. The actual measurement of the finished garment is highlighted under each size.
By selecting the right size and knitting to the correct tension, you will achieve the fit pictured.

Check your tension
Knitters are rarely 'average' in tension. Even the PATONS expert knitters check their tension – and adjust their needle size – before starting each new garment.
PATONS includes how to check your tension at the beginning of each design instruction. This short test will show if you need to adjust your needle size to achieve the right fit.
Inaccurate tension results in a garment either too big or too small. Even a variation of half a stitch makes a difference and could result in your garment sagging, pilling or rubbing.

Avoid colour mis-match
Buy or reserve enough yarn to complete your garment. With any Brand, shade variations can occur between dye lots.

Check the dye lots
The dye lot is printed on the ball band. Check each ball is from the same dye lot.

Retain ball bands
It's a good idea to keep all the ball bands – to help us help you if you have an enquiry.

Understanding the steps
Before you start knitting, we suggest reading through the instructions to familiarise yourself with the steps and terms.
You will find it helpful to circle or highlight your size throughout the instruction before you begin. This avoids mistakenly working the wrong size.

Knots
Never tie knots in the middle of a row. It's amazing how they always seem to work their way to the front, making your knitting look uneven and messy.

Using printed yarns
Most multi-coloured yarns should be knitted working from 2 balls.
This helps avoid obvious patches of colour in your knitting. If a colour patch occurs, you may choose to re-join the yarn – at the beginning of a row – starting with a different section of colour in the yarn.
Method – Work 2 rows from the first ball, then 2 rows from the second ball. Continue, taking care not to carry the yarn too tightly along the side of your work.

Take care with finishing
Sewing together a garment is the last important step where care is needed to produce a professional finish. PATONS includes an explanation and illustrations for the techniques used in each book.

Unsure?
Every effort is made to ensure that PATONS instructions are clear and correct in every way. If you have difficulty, please contact us by phone, fax, letter or the internet for assistance. Details are on page 12.

**SKILL LEVELS**

- **Beginner Projects** for first-time knitters using basic knit and purl stitches. Minimal shaping.

- **Easy Projects** using basic stitches, repetitive stitch patterns, simple color changes, and simple shaping and finishing.

- **Easy Projects Plus - not quite easy** - skill extending with instructions.

- **Intermediate Projects** with a variety of stitches, such as basic cables and lace, simple intarsia, double-pointed needles and knitting in the round needle techniques, mid-level shaping and finishing.

- **Experienced Projects** using advanced techniques and stitches, such as fair isle, more intricate intarsia, cables, lace patterns, and numerous colour changes.
TENSION SQUARE

The instructions given in the tension paragraph of a knitting pattern will be either for working in stocking stitch or in pattern stitch. For either there should be enough stitches for at least 15 cm in width. Work in pattern or stocking stitch according to the wording of the tension paragraph until the piece measures at least 15 cm in length.

STITCH TENSION

To check the stitch tension place a pin vertically into the fabric a few stitches from the side edge. Measure 10 cm carefully and insert a second pin. Count the stitches. If the number of stitches between the pins is less than that specified in the pattern, your garment will be too wide. Use one size smaller needles to knit another swatch and measure the stitches again. If there are more stitches than specified, your garment will be too small. Change to one size larger needles, knit another swatch and measure the stitches again.

ROW TENSION

To check the row tension place a pin horizontally in the fabric a few rows from cast on edge. Measure 10 cm carefully and insert a second pin. Count the rows. If the number of rows between the pins is less than the number specified in the pattern, your garment will be too long. If you cannot obtain the tension exactly right on both stitches and rows, decide which is more important. Generally it is better to obtain a correct width measurement, as lengths can usually be adjusted during knitting by adjusting the length to underarm or the sleeve length. These lengths are usually given as a measurement and not in rows. Your tension will become more even the more you practise knitting.

MATTRESS STITCH SEAM

This seam is worked from the right side and enables the matching of stripes and fancy patterns.

1. With right sides facing, lay the pieces to be joined side by side on a flat surface. Thread a wool needle with the yarn to sew the seam. Insert the wool needle from the wrong side, up to the right side between the edge stitch and second stitch in the first row. Draw thread up, leaving an end approx 15 cm long (to be sewn in later).

2. Insert the wool needle down between the corresponding edge stitch and second stitch in the first row on the opposite piece, pass the needle under the loops of 2 rows and bring it up to the front of work. Draw up thread loosely. Return to the first piece and insert the wool needle down in the same space that the last stitch came out of and pass it under the loops of 2 rows and bring it up to the front of work. Draw up thread loosely.

3. Repeat this zig zag action, always taking the needle under loops that correspond exactly to the opposite side. Work loosely, leaving seam stitches approx 1 cm wide. When seam is about 2 cm long, pull thread gently to close seam. When seam is complete, sew in ends.

NOTE – Always keep work elastic - there should be as much stretch in your seam as there is in the rest of the garment.

SLIP-STITCH
This is the method used for turning up hems or stitching double neckbands in place. Work 1 stitch into each cast-on or cast-off stitch to be sure that the work will be elastic. Always be sure that the stitches follow up evenly and do not form a crooked line.

FLAT SEAM
This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top though the centre of the stitch, then in same manner through corresponding stitch on second piece.

Note – Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic – there should be as much stretch in your seam as there is in the rest of your garment.

TURNING
There are 2 uses for turning. The most common use is to divide the knitting to work the pieces separately (e.g. the front neck of a jumper).
When instructed to turn, simply turn the knitting around by swapping the needles to the other hands ready to work back in the other direction (this will be considered to be the next row).

Turning is also used to make one side of the work longer than the other (e.g. Shawl Collar). This usually comes with a note as follows:

NOTE - When pattern specifies 'turn' - proceed as follows (to avoid holes in work) - take yarn under needle and onto other side of work, slip next st onto right hand needle, take yarn under needle and back to original position, slip st back onto left hand needle, then turn and proceed as instructed in patt.

If the last stitch was knitted, take the yarn under the needle to the front of the work as for purling (if the last stitch was purled, take it to the back as for knitting).
Slip the next stitch from the left needle to the right needle (this is the first stitch not being worked).
Take the yarn back to its original position.
Slip the stitch back onto the left needle.
Turn the work and then work the next row as required.

MAKING A POM PON

1. Decide on the size of the Pom Pon. Cut two circles of cardboard slightly larger in diameter than the finished size you want. Cut a smaller hole in the centre of each circle, about half the size of the diameter.

2. Hold the two circles together and using a long length of yarn threaded through a wool needle, wind the yarn around the ring until the ring is completely covered.

3. Place the point of sharp scissors between the two circles and cut around.

4. Separate the two circles slightly and using a double strand of yarn, place between the circles and tie FIRMLY into a knot. Pull away cardboard and fluff out yarn to cover centre join. Trim neatly. The yarn used for the centre knot should be used to attach pom pon to your item.
Knitting has taken on a new charm and has become a very popular handcraft. It’s the greatest constructive leisure activity suitable for all ages and is once again a high fashion craft.

Once the basic hand knitting techniques have been mastered, the craft allows a wide field of independent interpretation and flexibility.

Though no one knows when women first began to knit, we do know that history records it was the men who did the knitting. As far back as 200 A.D. knitting was an advanced and accomplished art - so get those needles clicking, let’s see what you can do.
1. **CAST-ON**

1. Make a loop on one of the needles. Hold this needle in your left hand. Take the 2nd needle in your right hand and put it through the loop.

2. Put the yarn round under to the left then over to the right.

3. Pull this loop through the first loop.

4. Put this new loop on your left needle.

5. Now push your needle between the two stitches. Pull the yarn round as before.

6. Pull the loop through.

7. and put it on your left needle.

8. Make as many stitches as you need.

---

2. **KNIT**

1. Push your needle through the middle of the first stitch.

2. Put the yarn round under to the left then over to the right.

3. Pull the loop through.

4. Slip the stitch off the left needle.

5. Knit every stitch to the end of the row.

6. Change the needles over and knit another row.

7. Rows of knit stitch are called Garter Stitch.

---

*Patons*
3. PURL

1. With the yarn at the front push the needle through the 1st loop towards you.

2. Put the yarn round under to the left then over to the right.

3. Pull the loop through.

4. Slip the stitch off the left needle.

5. Purl every stitch to the end of the row. Change the needles over and purl another row.

If you knit 1 row then purl the next you make stocking stitch.

If you knit 1 purl 1 right across you make rib.

4. INCREASE

1. To increase is to make 1 stitch. Knit the stitch as usual, but don't slip it off the needle. Now knit into the back of the same stitch.

2. This time slip the stitch off the needle. You have made 2 stitches out of 1.

5. DECREASE

1. To decrease is to lose 1 stitch. Put your needle through 2 stitches. Knit as usual.

2. Slip the 2 stitches off the left needle. You have lost a stitch.
6. CAST-OFF

1. Knit two stitches.

2. Pick up the 1st stitch, lift over the 2nd stitch.

3. and drop it off the needle

4. Knit one more stitch to make 2 on your needle. Lift the 1st stitch over as you did before. Carry on like this until there is only 1 stitch left.

5. Break the end and put it through the stitch. Slip the stitch off the needle and pull the end tight.

**CRAB STITCH**

Crab Stitch (or Reversed Double Crochet) is used as a decorative texture or edging. It consists of working double crochet stitches in the 'wrong' direction (from left to right for right handed crocheters).

After a right side row, do not turn.

With the hook facing downwards, insert hook into next stitch to the right, wrap yarn around hook and draw through front of work. Wrap yarn around hook and draw through both loops on hook.

Repeat across row.

Fold hem onto wrong side at picot row and slip-stitch (see page 24) loosely in position. Sew in all ends. Press hem and seams.

BULLION STITCH
Pick up a Back Stitch, the size of the Bullion Stitch required, bringing the needle point out where it first emerged, do not pull the needle right through the fabric. Twist the thread round the needle point as many times as required to equal the space of the Back Stitch. Hold the left thumb on the coiled thread and pull the needle through; still holding the coiled thread, turn the needle back to where it was inserted (see arrow) and insert in same place. Pull thread through until the Bullion Stitch lies flat. Use a needle with a small eye to allow the thread to pass through the coils easily. Arrange a circular group of Bullion Stitches to make a Grub Rose.

LAZY DAISY
The method of working individual chain stitches to form 'petals' which can be grouped together to make a 'flower' of 4, 5 or more petals.
